HEALTHY WORKERS ACROSS INDUSTRY PROGRAM

Industry associations and peak bodies are well positioned to actively promote and work with their members and businesses which are ready to take a more active role in workplace health initiatives.

Business SA respects that industry associations and peak bodies know the circumstances, needs and challenges experienced within their own industry and member businesses. They have experience when it comes to driving a change agenda and generally have communication and support mechanisms in place to implement positive change.

We all recognise that healthy workplaces can greatly contribute to increased productivity, reduced absenteeism and staff turnover.

WHAT THIS PROGRAM OFFERS

Business SA is proud to be working with SA Health to deliver a Healthy Workers Across Industry program. Business SA is committed to working with all interested South Australian industry associations and peak bodies to advocate for and support workplace health and wellbeing actions across industries and member businesses.

Business SA's Healthy Workers Adviser can engage with your association or peak body to explore the health and wellbeing strengths and opportunities within your industry.

We can work with you to enhance a pre-existing industry mechanism or program which supports workplace health and wellbeing. We can also work with you to develop or enhance new workplace health and wellbeing initiatives for your industry.

Financial incentives are available to encourage the creation or enhancement of industry-led healthy workplace initiatives.

You do not need to be a Business SA member to benefit from this program.

HOW TO GET INVOLVED

If you would like to hear about how Business SA can work with your industry association or peak body, register your interest with Kylie Cocks, Healthy Workers Adviser on (08) 8300 0251 or on 0477 992 298, at kyliec@business-sa.com or visit business-sa.com/healthy-workers
